RECORDED 3/03/2011 AT 9:10 AM REC# 564096 JK# 2210 PG# 314
 DEBRA K. LATHROP, CLERK OF LARAMIE COUNTY, WY PAGE 1 OF 2

Corner Name Section Corner Section 8, 9, 16 & 17, T 12 N, R 61 W, 6th P.M. Cross-Index No.: 1-9

Procedure to set this corner is as follows:

1 – Utilized field notes as performed by T.H.B. & M.D.M. dated 5/7/1951. Field Book 33, Pages 34 to 41. Work was performed for “L.E. Hockett Sec 12-T12N-61W, setting line between NW ¼ and SW ¼.”

2 – Utilized the field notes for “Road No. 27 – from Egbert to Colorado State Line.” Field Book 2, Page 20.

These field books are County Road Books and can be viewed at the County Clerk & Records office.

3 – From found 2” pipe (nka Point A) for corner to Sections 1,2,11,12 as described in said Book 33, I produce a line from this pipe westerly through a fence post (said fence post is on the east side of CR 156, fna County Road No. 27 – fence runs east and south only) 33 feet west to establish Point B. Point B to Point A measures 16004.3 feet as opposed to 16006.2 feet per said Book 33. Point B is now the corner for Sections 4,5,8,9 (E-9, T12N, R61W).

4 – From Point B towards Point A I go easterly one mile to intersect a north-south fence line. This intersect point, nka Point C, measures 5317.4 feet from Point B versus 5318 feet per said Book 33. Point C is now the corner for Sections 3,4,9,10 (E-13, T12N, R61W).

5 – For corner of Sections 2,3,10,11 (E-17, T12N, R61W) I held the measurement as described in said Book 33. From Point B towards Point A I measure 10767.3 feet. This corner lies at the centerline of a north-south road. Same as described in said Book 33.

6 – For corner to Sections 8,9,16,17 (J-9, T12N, R61W) I held said Point B, then south 80.3 chains (5299.8 feet) to the centerline of CR 156. The measurement of 80.3 chains is from said Book 2.
