- Witness corner Granite stone lying 56 1/2 feet northeast from corner stone. WCCR stone is lying on ground at fence corner, probably fallen to the north with chiseled "WCCR" on top (was south) face. Measured from base (south end).
- Witness corner Granite stone lying 56 1/2 feet southeast from corner stone. Set on south side of gate post. Has "WCCR" on south face, may be disturbed, but WCCR stone to WCCR stone measures 80.0 feet.
- Note: Laramie County Engineer's office has no specific notes on the witnessing of this road, but other notes, especially the Chalk Bluffs Road notes, show corners set 40 feet to the East and West of North-South road and set at 56.4 feet diagonally from intersections, usually NE and NW.
