

**State of Wyoming Corner Record**

(In compliance with the CORNER PERPETUATION AND FILING ACT, Wyoming Statutes, 1977, Section 36-11-101, et. seq., and the Rules and Regulations of the Board of Registration for Professional Engineers and Professional Land Surveyors)

Reverse side of this form may be used if more space is needed.

Record of original survey and citation of source of historical information (if corner is lost or obliterated). Description of corner monumentation evidence found and/or monument and accessories established to perpetuate the location of this corner. Sketch of relative location of monument, accessories, and reference points with course and distance to adjacent corner(s) (if determined in this survey). Method and rationale for reestablishment of lost or obliterated corner.

G.L.O. Notes: Unknown

Subsequent Records: Certified Land Corner Recordation form filed May 23, 1972 by Mr. R.L. Hudson, Wyoming L.S. No. 519, indicating no found or set monument at the corner point and a witness corner 40.00 feet north.

Found: A standard 3 1/4" Wyoming Department of Transportation aluminum cap marked "WYOMING HIGHWAY DEPT DO NOT DISTURB SURVEY MARKER", encased in a 2' x 2' concrete pad. Aluminum cap was stamped as noted below with a punch mark. After conversation with Mr. David Hammond, P.L.S., District Land Surveyor for the Wyoming Department of Transportation it was my understanding that the punch mark in the monument indicates the actual corner point. All measurements and ties noted below are to the punch mark. The witness corner noted in the above R.L. Hudson C.L.C.R. form was not found.

Aluminum Cap Stampings

Survey ties from the corner of this record:  
 Basis of Bearings and Distances: Both being determined and measured by the Trimble RTK GPS System and the City of Cheyenne Control Monuments Dell Range No. 2 to Dell Range No. 3 bearing being held as S89°49'41"W.
