

# Wyoming Certified Land Corner Recordation Certificate

This form is to be completed in accordance with W.S. 36-11-101, printed in black ink or typed, and shall be for one individual corner.

Describe below, or show in sketch attached to this form, the corner evidence found. Include condition and type of monument, accessories and ties. Describe any maintenance or rehabilitation performed. In the circle to the right, show monument inscription. If monument is determined lost or obliterated, restate the GLO or BLM original field note record; describe or show the procedure used to reestablish the corner and all data as above for a found monument.

Field Date 10-9-89 Office Reference 1948

## Monument Inscription

From records at Laramie County Engineer: In 1975, Robert Corbet, L.S.495, found a loose stone and set a 1/2" iron pipe at the fence corner. From this the Bruns #7 Well was tied in. In 1977, Wm. Braman, L.S.566, found the 1/2" iron pipe and used it to tie in the Bruns #4 Well. On October 9, 1989, I found a granite stone, 8" x 12" 16", not set in ground, with 3 chisels on one side and 3 chisels on the opposite side. The fence corner and attached fences have recently been rebuilt, and I could not find Corbet's pipe, despite digging a hole 4 feet in diameter and 0.5-1.0 feet deep. The corner is obliterated; it could be reset from the well ties.

## State of Wyoming

Office of County Clerk

County of \_\_\_\_\_

This Certified Land Corner Recordation Certificate was filed for record on the \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_, in Book No. T 15N, R 61W, on Alpha-Numeric coordinates A13 and was noted on the Cross Index Plat.

**State Plane Coordinates (optional)**

Closing corners will be indexed under the township in which they control ownership. For 1/64, 1/256, 1/1024 and non-aliquot corners lying between grid designations, mark the appropriate grid area with a dot and use the index code to the north and west (local systems may be used if the method is approved by the County Surveyor or Clerk and a written description of its use is filed in the front of each book of certificates).

Section, quarter and sixteenth corners will be marked with a dot at the corner location. The alpha-numeric coordinate number is then determined for the intersection of the two lines. A corner that applies to two or more townships shall be filed under all that apply by the use of photo copies.
