

State of Wyoming Corner Record

(In compliance with the *CORNER PERPETUATION AND FILING ACT*, Wyoming Statutes, 1997, Section 33-29-140, et. seq., and the Rules and Regulations of the Board of Registration for Professional Engineers and Professional Land Surveyors)

Reverse side of this form may be used if more space is needed.

Record of original survey and citation of source of historical information (if corner is lost or obliterated). Description of corner monumentation evidence found and/or monument and accessories established to perpetuate the location of this corner. Sketch of relative location of monument, accessories, and reference points with course and distance to adjacent corner(s) (if determined in this survey). Method and rationale for reestablishment of lost or obliterated corner.

G.L.O. Record: Unknown

Subsequent Records: After review of records in the offices of the Laramie County Clerk and Engineer and the Wyoming Department of Transportation, I could find no evidence of previous surveys establishing or reestablishing this corner position. The existing Horse Creek Road was determined by me to not follow an established section line.

Set: At double proportionate distances from found accepted original corners north and south and accepted corner positions from corners east and west, I set a No. 6 x 30" rebar with 3 1/4" Aluminum Cap marked as noted below. Set monument is 3.5' south of the south edge of asphalt and 15.0' south of the existing centerline of Horse Creek Road.

See Right-of-Way Map of Survey for the Wyoming Department of Transportation filed in the Laramie County Clerks Office for additional information and coordinates of adjacent monuments.
