

State of Wyoming Corner Record

(In compliance with the CORNER PERPETUATION AND FILING ACT, Wyoming Statutes, 1977, Section 36-11-101, et. seq., and the Rules and Regulations of the Board of Registration for Professional Engineers and Professional Land Surveyors.)

Reverse side of this form may be used if more space is needed.

Record of original survey and citation of source of historical information (if corner is lost or obliterated). Description of corner monumentation evidence found and/or monument and accessories established to perpetuate the location of this corner. Sketch of relative location of monument, accessories, and reference points with course and distance to adjacent corner(s) (if determined in this survey). Method and rationale for reestablishment of lost or obliterated corner.

G.L.O. Record: Unknown

Subsequent Records: Laramie County Road Branch C.R.#6, County Roads No. 23 Book, (circa 1925) indicates no stone found but described as following the section line.

Set: The corner to Sections 21-22-27-28 was determined as follows: The latitudinal position was at 40.00 feet north of a found Wyoming Highway Department right of way marker (no stationing) set inline with a old easterly fenceline that appeared to follow close to original south right of way line of Laramie County Road Branch C.R. #6. The longitudinal position was determined at the centerline of existing County Road No. 163 declared a county road in 1922 with no specified right of way width. This position was found to be closely harmonious with original G.L.O. records. At the determined position I set a No.6 x 30" rebar with 3 1/4" aluminum cap marked as noted below.
