

State of Wyoming Corner Record

(In compliance with the CORNER PERPETUATION AND FILING ACT, Wyoming Statutes, 1977, Section 36-11-101, et. seq., and the Rules and Regulations of the Board of Registration for Professional Engineers and Professional Land Surveyors.)

Reverse side of this form may be used if more space is needed.

Record of original survey and citation of source of historical information (if corner is lost or obliterated). Description of corner monumentation evidence found and/or monument and accessories established to perpetuate the location of this corner. Sketch of relative location of monument, accessories, and reference points with course and distance to adjacent corner(s) (if determined in this survey). Method and rationale for reestablishment of lost or obliterated corner.

G.L.O. Record: Unknown

Subsequent Record: Certified Land Corner Recordation Certificate filed by Floyd C. Curtis, Wyoming L.S. No. 317, Sept. 29, 1971.

Found: No. 5 x 30" rebar as set by Floyd C. Curtis at the intersection of traveled roadways and fenced rights-of-way. Also, found Floyd Curtis rebar was not at present day centerline of constructed roadway north. Found Floyd Curtis rebar was compatible with excess distances noted on Henry G. Hay, Deputy G.L.O. Surveyor, (circa 1873) retracement of a portion of the Standard Parallel along the south line of Section 34 which he found to be 40.20 chains per half mile.

Set: At the found No. 5 x 30" rebar, I set a No. 6 x 30" rebar with 3 1/4" domed aluminum cap marked as noted below. Monument was set approximately 1.0' below graded county road surface.
